Which Was Guilty.

'I do think, John, you might let me have a little more money!" Victoria Hale was sitting at th

breakfast-table, a pout upon her cherry lips, an ominous wrinkle between her brows. She looked very pretty in her morning dress of fluted white lawn, with a breakfast cap of Swiss muslin and rose-colored ribbons that were peculiarly becoming to her olive skin and large, velvet black eyes.

Her husband, slowly sipping his coffee at the other side of the table, was quite as handsome and distinguished looking in his way. John Hale was chief bookkeeper and cashier iu a large firm in Wood Street, and had scarcely been married three two?" months as yet. Already, however, the bloom and charm of wedded life had been dissipated in some degree. He had begun to discover that his divini-

ty was not all divine. 'More money, Victoria!' he repeat ed, with a scarcely preceptible knik ting of the brows. 'Are you not get ting unreasonable? Do I not keep you liberally supplied with all the money that I have to spare?'

'But it's so mortifying to go shopping with Mrs. Hyde and Mrs. Bennington and have to stand by while they are purchasing the sweetest things at such bargains.' 'Don't go shopping with them, then

that's my advice." 'You would shut me up, then, from all amusements and society?' better than that! Here are your pret-

tily furnished house, your garden, your little conservatory, to amuse you.' 'I'm tired of them all,' said the pretty bride. 'One cannot be contented with the same thing forever.' 'If you wanted a perpetual change

'But you know all our neighbors about here are tolerably well off, and I don't want to be left behind. I shall be mortified to death it I can't have a croquet party in July.' 'I have no especial objection to that,

said her husband. 'I suppose it need not necessarily be expensive?' 'Not so very,' said Victoria. 'O course, we must have a band, and the sweets and ice from the confectioner's." 'Wouldn't your piano, and a little home-made cake and ice-cream, do?' 'What nonsense! Do you suppose I

could ask our stylish neighbors to such a two-penny sort of affair as that?" 'They would know it was as good as we could afford. 'And I need a lace parasol terribly.

And oh! John, I had forgotten about Mrs. Lacy's cream-colored ponies.' 'I hope for goodness' sake, she don't

want you to buy them.' 'No, of course not. But she says 1 may use them while she's at Scarborough. Isn't it kind of her?'

'I dare say it's very kind,' said John Hale, ruefully, 'but do you chance to know how much a pair of ponies costs in the kceping-to say nothing of the expense of the groom?" 'Oh, if you're going to stoop to such

petty considerations as that-'Well, well, use them if you like. dare say we shall manage somehow.' 'And the croquet party? Only thirty of forty people-just to pay our social debts. It's so shabby to be behind hand in such things.'

'If you will be as economical as you can about it-' 'And the parasol? And the sum-

mer silk that is such a bargain at Peter Robinson's-' 'Yes, yes, yes! Only remember Vic that there is a limit of our funds.'
